VILLAGE OF NORTH UTICA PRESS RELEASE

This is an updated message from the Village of North Utica regarding the Illinois River flooding.

Based on the most recent information from the Army Corp of Engineers and working with Local, County and State Agencies, current flood levels are less than previously projected. At this time it is expected that there will be minimal impacts to the areas that would be typically affected and as a result, the Village is lifting the mandatory evacuation.

Please be advised that the National Weather Service continues to have a flood warning in effect for the Illinois River.

We will continue to monitor the projections of the Illinois River and further updates will be made as necessary and as information becomes available. Updates can also be found on our website at www.utica-il.gov under "Village Announcements" which is located on our Home Page.

Should you need to update your Code Red information, you can find the link on our website under the 'LIVE' Tab on our Home Page, or you can call us directly at 815-667-4111. The Village Office is temporarily located in the Utica Community Township Building at 200 Mill St.

Thank you
